From Glenda B. Smith:
The young half sister of Eliza C. Gordy (Sarah Lanier, 2, in the 1850 census) married Christopher C. Best in 1869, and by the 1880 Census is found in Russell County Alabama, (North Half of Beat 1.) Burns Niblett and

Eliza C. Gorday Niblett are also found in Russell County, Alabama (North Half of Beat 1.) Additionally, by 1860, Henry L. Williams and Rachel Niblett had found their way to Russell County, Alabama. (The Henry Williams in the household of John Lanier gave me a start; however I found the correct Henry in the household of Benjamin Williams.)

Know all men by these presents: That I, E.B.M. Niblit, commonly called E.B. Niblit, of said state and county, being of sound mind and memory, do make this my last Will and testament:

- 6) But it is expressly stipulated that my wife, said Susie A. Niblit, shall have the right to sell any or all of my personal property whenever in her judgment the interest of herself or the interest of Ruby Smith demands it, or whenever, if ever, she shall need to use the proceeds of any or all of said personal property, she to be the sole judge as to the property of selling the same and in case she shall sell any of such property she is hereby empowered to make or convey a perfect title to the same. She, said Susie A. Niblit is hereby authorized and empowered to use any cash or the proceeds of any such personal property as she may deem necessary.

Petition of Susan A Niblit In the Probate Court
For Probate of Will E.B.M. Niblit of Russell County, Ala.
Sept. 28, 1920

Mrs. Ruby Smith, J.I. Smith, H. A. Ferrell and C.O. Martin, having been duly sworn by the Court, in the above state case, testified as follows:

Mrs. Ruby Smith testified;

I know the signature of my father E.B.M. Niblit, this signature to the paper writing in my hand purporting to the Will is his genuine signature. To the best of my judgment the signature of E. Meredith, the witness to the Will is his genuine signature. I do not know the signature of Geo. C. Porter. Geo. C. Porter is now a non resident of the state of Alabama. E. Meredith is now dead. Geo C. Porter and E. Meredith were the subscribing witnesses to this Will. E. B. M. Niblit was my father. He died 24th May, 1919. At the time he made his Will so far as I know and to the best of my judgment, on the 9th day of Nov. 1911, he was of sound mind and fully capable of making his Will. He was over the age of 21 years. Ruby Smith

Mr. J. I. Smith testified:

I knew Mr. E. B. M. Niblit in his lifetime. He was my father-in-law. He died on the 24th May, 1919, leaving his assets in the county, the next of kin of the decedent is his only child, Ruby Smith, my wife. She is 28 years of age and resides at Girard, Ala. He also left a widow, Mrs. Susie A. Niblit, who is over the age of 21 years and resides at Girard, Ala. Who is named his executor in the Will. Mr. E.B.M. Niblit was of sound mind and disposing memory at the time of the making of his will Nov. 9, 1911, and at that time he was over the age of 21 years

J. I. Smith

Mr. C. O. Martin testified:

My name is C.O.Martin. I have held public office in Russell County, Ala. For a period of covering over 15 years. I have upon many occasions seen Mr. Porter write and have closely observed his handwriting. I am familiar with the signature on the paper writing of Geo. C. Porter purporting to be the last Will and testament of E.B.M. Niblit and am sure it is the genuine signature of Geo. C. Porter

C.O. Martin

Mr. H.A. Ferrell Testified:

I know the signature of Geo. C. Porter. I have had extensive correspondence with Geo. C. Porter, covering a period of 9 years. Bryce Hospital for the Insane
Tuscaloosa, Alabama

Peter Bryce (1834-1892) laid the groundwork for the care of the mentally ill in Alabama, not by the mere holding of a position, but by his own sensitive, patient nature and by the inauguration of treatment methods that mark him as a pioneer in psychiatry.

Bryce, a native of South Carolina, was elected superintendent of the newly created, not yet completed, Alabama Insane Hospital in 1860, when he was only 26 years old. He gave the remaining 32 years of his life to the hospital that now bears his name. The idea of "moral treatment" of the insane, discarding the use of shackles, jackets and other medical restraints was 70 years old but still virtually unknown in this country when the first person was admitted by Bryce in 1861. The young physician enforced strict discipline among his attendants, requiring nothing short of absolute courtesy, kindness and respect toward the patients. This conscientious nursing bore fruit in the form of warm relationships and by 1882 a policy of absolute non-restraint could be initiated. Bryce set up programs of work - farming, sewing, maintenance - and of amusement for his patients; programs valuable both as therapy and as a means of making ends meet. The very survival of the hospital during its early years, when the state's interest and finances were directed to other needs, must be listed as one of the superintendent's greatest accomplishments.

Bryce created a mental institution recognized as one of the best managed in the country. An understatement, but nonetheless true, is Bryce's own assessment, written just before his death: "I feel that I have done my work, and hope, without selfpraise, to be permitted to say I have done it well."

Note: I found this piece of paper while browsing records at the courthouse in Brewton, Esc. Co., AL. Many times we hate to think about our ancestors being insane or metally disturbed in some way. Many family members may prefer not to have such things brought out into the open. But I feel a good genealogist doesn't leave any stones unturned. We all find "skeletons" in our closets. While these does not list names of patients or anything of the such. I thought it was interesting to know a little something about AL Insane Hospitals. There are probate records in the courthouse and probably in most AL courthouses that show where people have been brought before a Probate Judge and ordered to be committed to one of the hospitals mentioned in the leaflet below.

The Alabama Insane Hospitals

Instructions On Bringing A Patient To The Hospital

No patient can be received without a legal certificate from the Probate Judge. Let the patient whom you bring, distinctly know where he (or she) is going. A patient seldom forgets being deceived in that particular; and it affects many injuriously, when they hold it as a grievance afterwards. The Probate Judge, if he sees proper, can deputize any relative to accompany a lady patient, if possible. In some cases, the presence and control of a stranger - an officer of the law - acts injuriously. Furnish the patient with a sufficiency of comfortable clothing. With many, to wear good clothing of their own, tends to their self-respect and satisfaction - and to receive articles of clothing, as well as other remembrances from home, is a matter of pleasure. Lists of clothing needed will be sent from time to time during the year to the family. All persons are supposed by law, to be able to pay for their board and attention at the Hospital. The Probate Judge of the County where the patient resides determines whether they are not able to pay and issues certificates accordingly. The regular charges are SIXTY DOLLARS A QUARTER (Sixty is crossed through and 75 is written above it) in advance, which covers board and all Hospital expenses.

The patients are not allowed to have articles of value, such as jewelry, money, watches, ect., on the wards, nor articles of danger, such as knives, matches, scissors, ect. They ought not bring such things with them. The answers to interrogatories on an accompanying sheet, relating to family and personal history, are very important. They ought to be made fully and honestly, giving as much information as possible. They are of great value to the physicians in making a correct opinion of the patient. The Bryce Hospital is three miles from the depots in Tuscaloosa. The street cars meet all day trains; automobiles and hacks meet them day and night. Contract with the driver before entering his conveyance. The Mt. Vernon Hospital is one-fourth of a mile from the depot. The trip, if possible, ought to be arranged so as to reach the Hospital DURING THE DAY. There is an extra charge for a vehicle at night, which often causes annoyance and imposition; besides, the patient generally comes more willingly and in better shape during the day and necessary routine of receiving and assigning him is more conveniently and satisfactorily done.

Bryce Hospital

This facility is located in Tuscaloosa adjacent to the University of Alabama. It is the state's oldest and largest inpatient psychiatric facility. The hospital currently has 464 beds, but at the time the famous Wyatt litigation began it held more than 2,000 patients. It serves a variety of patients in residential treatment and rehabilitation programs. Services include programs for acute care, rehabilitation, Medicaid certified adolescent inpatient care (40 beds) and extended care. Female Forensic inpatients from the northern 2/3 of the state are housed and treated at this hospital.

In addition, Bryce operates two Medicaid certified intermediate care facilities, providing an additional 354 beds for persons with serious mental illness. All programs and facilities meet the requirements for accreditation by JCAHO, as well as by Medicare and Medicaid. The Harper Geriatric Hospital, which opened during 1995, is physically located on the Bryce campus. It has more than 100 Geriatric Beds
