Notes for John Scott:

I hadn't answered your question pertaining to the marriage date of John Scott and Isabella Goodfellow. We had been told, all along, that they were married in Athens, Ohio, on Feb. 22, 1907 and that Edna May was born in Athens, Ohio on May 30, 1908. Then, as I told you, after the death of her mother, Edna May found out that there was some mystery surrounding her birth. She figured she must have been born in 1907...perhaps just three months after her parents marriage, which her sisters, who found the documents, were trying to hide from the rest of the world. This is just what she thought up to the time of her death.

When I started to try to find copies of these documents, I sent to Athens, Ohio, and obtained a copy of the marriage certificate of John & Isabella who, it turns out, were married on February 22, 1909. Since then, I have still not been able to locate a birth certificate for Edna May. Anyway, 1909 is the correct year for the marriage, but the date 1907 had been told all these years - Joan Harrison
