Amara is a town on the left bank of the Tigris some 520 kilometres from the sea. The cemetery is a little east of the town between the left bank of the river and the Chahaila Canal.

Historical Information

Amara was occupied by the Mesopotamian Expeditionary Force on 3 June 1915 and it immediately became a hospital Centre. The accommodation for medical units on both banks of the Tigris was greatly increased during 1916 and in April 1917, seven general hospitals and some smaller units were stationed there. Amara War Cemetery contains 4,621 burials of the First World War, more than 3,000 of which were brought into the cemetery after the Armistice. In 1933 all of the headstones were removed from the cemetery when it was discovered that salts in the soil were causing them to deteriorate. Instead a screen wall was erected with the names of those buried in the cemetery engraved upon it.
