1840 Murray County, Georgia

James Ramsey page 263 (no marks at all)

George Farnsworth page 255

2 males under 5, 1 male between 5 and 10, 1 male between 20 and 30, 2 females under 5, 1 female 5 to 10, and 1 female between 40 and 50 (this mark may have been made in the wrong place because she would not have been this old)

On the 1850 Census Elizabeth is in Franklin County living in the household of a James R. Roberts born Virginia with children belonging to James and I believe this James Ramsey in Walker County, Ga. to be him. He may have went back to take care of some things before moving on to Holt County, Missouri. Elizabeth is the widow of George Farnsworth and they are in Murray County, Georgia in 1840. There is also a James Ramsey in Murray County, Georgia for that year but he has absolutely no marks on the census for his family or him. I am thinking they didn't know what to put because his wife had just died and he had taken his children back to his mother in Hamilton County. So no one was in the household at that time.
