Notes for Benjamin BOND:

"OUR QUAKER ANCESTORS

Finding Them in Quaker Records"

by Ellen Thomas Berry & David Allen Berry

From Chapter VII "Quaker Records and Some Possible Problems" pg.67 and 68:

"Another pitfall for the purist can be the unique way the Quakers dated events. They did not use names for days of the week or months of the year since most of these names were derived from the names of pagan gods. A date such as August 19, 1748 will never be found. Rather it would be written as "19th da 6th mo 1748." Sometimes this will be written as 6mo 19da 1748. Why 6th month since August is the 8th month? The Quakers, along with everyone else in the American Colonies and England, did not begin using the Gregorian calendar until 1752.

Under the Julian calendar the year began on March 25th; March was the first month and February was the twelfth month. This is something of a problem when an event occurred in the months of January, February or up to March 25th, for then the date is given as 1748/1749. Such a dating practice satisfied everyone, including civil authorities, if for instance an inheritance was being established.

You may find that some legal documents will read "the 8th mo 5th day 1748 in the month called October." It is disconcerting when a date such as 30th da 11th mo 1722/1723 is found. The double year indicates that the old calendar was in use. Even though the Gregorian Calendar was adopted in 1582, as mentioned above it was 1752 before the change was universally accepted. We are emphasizing this point here so that if exact days, months, and years are wanted, the old Quaker records must be used with great caution. Remember that until 1752 "1st mo" is March.

We would like to point out also that you may find secondary material (genealogies are a case in point) in which the compiler transcribed dates incorrectly - for instance. "30th da 11th mo 1738/1739" rewritten as "Nov. 30, 1738/39" when the date in question is actually "30th January 1738/1739. The dual year must be used until you are quite certain the locale in question has adopted the Gregorian calendar (or until the Quaker records no longer have the dual form or the year is after 1752). Dual dating is applicable ONLY for the first three months (to 25 March) of the present calendar and NOT for the other nine months. The first date given is the Julian year, the second the Gregorian year."

Another way of finding whether the old Quaker method of dating is being used in any given set of records is to search back and forth until a month such as the "2nd mo" is found and the see if entries were made on either the 29th or 30th days, If this was done, then you will know the old system was being used and the month would be the present month of April rather than February. Other months can be used. For instance, if it is the "7th mo" and you find the "31st," you would know the new system is being used and the month is our present month of July rather than the Quaker September."

In other words, before 1752, 11th month was January; 12th month was February; 1st month was March; 2nd month was April and so on.

1752 and after, 1st month was January, 2nd month was February, 3rd month was March...just as we number the months today.

When recording dates found in Quaker records, it is preferred practice to copy them as they are found and to record the source. Too often, dates have been transformed incorrectly in secondary sources and these dates should always be verified by the original monthly meeting records.

If you are using a commercial data base which does not permit entry of dates which reflect the manner in which they are found in the original records, I recommend putting only the year in the date field. In the next field where you would ordinarily enter the name of a city or township, enter the date again but as it was found. This can be followed by the name of the Monthly Meeting where the date was recorded, followed by the State.

When you print a family group sheet or other chart your output may look like this:

Mary Quaker

b. 1743 2 3m 1743 New Garden MM, NC

d. 1755 3 1m 1755 Deep River MM, NC

bur. 1755 5 1m 1755 Deep River FBG, NC

John Quaker

b. 1745/46 4 1m 1745/6 New Garden, MM, NC.

This may seem redundant, but to the recipient of your chart, it will be abundantly clear that your source came from an original church record and was not copied from the IGI or Ancestral File which are notorious for incorrectly recording this type of date.

They had to work for their passage and then they married in Bucks Co. PA. The Bond's were Quakers and because Joseph married outside of the Quaker rules, he was dismissed. Joseph and Martha had 5 children in Pa, then moved to Guilford Co. NC. After the move, 2 more sons were born.

Joseph's brother John travelled to America and Joseph followed. Joseph was the son of Benjamin Bond and Susannah "Ann" Paradise. Benjamin is the son of Edward Bond and Mary Moore. Edward died as a martyr for religious reasons.

Notes for Joseph BOND:

Joseph Bond, second child and eldest son of Johan and Jane (Beeson) Bond, was born Feb 29, 1780, in Guilford County, NC. His parents being Friends or Quakers, he had a birthright membership on that society. In the year 1795, when he was 15 years of age, a certificate of membership from Center Monthly Meeting of Friends in Guilford County NC, to New Hope Monthly Meeting of Green County, TN, was granted to Joseph Bond and his four brothers, Benjamin, Joel, Isaac, and William. It is supposed that his father moved at that time from North Carolina to Tennessee, taking his children and moving their membership in the meeting, the father not being a member at the time. When in 1797 Lost Creek Monthly Meeting was established he and his brothers became

members of that meeting, located in Jefferson County, Tenn. At the age of 17 years he married out of the meeting, contrary to the rules of the society, and thereby lost his membership. The records of the Lost Creek Monthly Meeting, dated Nov. 18, 1797, read as follows:

"The preparative meeting complains of Joseph Bond for accomplishing his marriage contrary to the good order used among friends. Also hath moved quite from among Friends, directly after he was married. This meeting therefore disowns him from being a member until he comes to a sight and sence of his misconduct and condemns the same to the satisfaction of Friends, which that he may is desired on his behalf."

It does not appear from the record that he ever came back to apologize. From this time on no trace of him could be found in the records of the monthly meeting. During the interval of 20 years from 1884 to 1905 I wrote perhaps several hundred letters in which inquiry was made fro the descendents of this Jospheh Bond or those of his brothers. Finally locating many of them in Missouri, some in Illinois and others in Kentucky. From these I learned that soon after his marriage, Joseph Bond and his father-in-law settled in Wayne County, Kentucky, near the Cumberland River. Here is where he reared his family and here his remains were buried. He died February, 1853. We learned from his grandchildren that he, Joseph Bond, married (1797) Abigail Hinds. She died about 1841. She was the daughter of Joseph Hinds, whose wife was a Ludlow.

178. Rosa B¹⁰ BOND (Perry G⁹, Samuel⁸, Joseph⁷, John⁶, Joseph⁵, Benjamin⁴, Edward³, Edward², Walter¹) was born May 09, 1893 in Scott Co, TN, and died December 23, 1927 in Scott Co, TN. She married **General Hodges STRUNK** March 09, 1911 in Huntsville, Scott Co, TN, son of Gideon STRUNK and Martha JENKINS. He was born August 15, 1885 in Huntsville, Scott Co, TN, and died February 05, 1950 in Oneida, Scott Co, TN.

Notes for Rosa B BOND:

Rosa had a variety of talents. She could make a dress by looking at a picture of the style. She could tat her own lace after looking at a sample. She was an excellent cook. She is described as a kind and gentle woman.

Obituary from the West Union Association United Baptists' Minutes, Paint Rock Church

"Rosa Strunk came to our church by letter of recommendation in December 1925 and she was a good and faithful member until death overtook her in a car wreck, December 23, 1927. She leaves a husband and 8 children to mourn her absence. We believe our loss is her eternal gain."

Rosa was on her way home from Christmas shopping in Oneida when the car went off the road between Helenwood and Huntsville. Loy Strunk was driving. At the time of her death, she was about 4 months pregnant.

Wife of General Strunk Killed and Others Injured

Last Saturday afternoon about two miles south of Oneida the car in which Loy Strunk, driver; Mrs. Strunk, wife of General Strunk; Shelby Strunk, Tax Assessor; Eugene McDonald, U.T. Student and son of Frazier McDonald; and Sam Harness were returning to Huntsville after shopping in Oneida for Christmas, ran over an embankment hurling the car with its occupants fifteen to twenty feet down a rocky precipice, killing Mrs. Strunk and injuring other occupants of the car. Mrs. Strunk and some of the party were pinned under the overturned car. Harness and Shelby Strunk were rather seriously injured. It seems that Loy Strunk, driver of the car, escaped unhurt. Mr. and Mrs Geo. T. Webb, of Helenwood came up soon after the accident and rushed Mrs. Strunk here to the office of Dr. Tom Phillips where she died a few minutes after, being removed to the undertaking parlor of Fred M. Leavitt where the body was prepared for burial. The accident seems to have been caused by a blow out on one of the left tires, causing the wheel to give way and the driver failing to get the car under control plunged over the embankment. General Strunk was in Williamson, West Va., where he has been working and did not get home until Tuesday night after the death of his wife. Mr. and Mrs. Strunk resided near Huntsville and have a large number of relatives in that, and other parts of the county. Besides her husband, she leaves a large family of eight

or nine children, most of them being small. Funeral services were held Wednesday morning at eleven o'clock with Rev. H.A. Phillips officiating. The large crowd at the funeral attested the high esteem in which Mrs. Strunk was held by the people of the community.

Conley was a skilled tradesman for the Chrysler Corporation. He was a pattern maker. Working in wood, and other materials he helped build a life size model of future cars. The life size model was used to create dies for casting body parts. Conley was a group leader, but refused to accept a promotion to foremen. Conley was a UAW member and strongly believed in the benefits of the Union. He told his children to never become a supervisor, and to value the union.
